

Job Title: Key Life Equipment (KLE) Technician – Kitchen and Laundry Equipment

Department: Operation & Maintenance

Location: Riyadh

Reports to: Maintenance Supervisor

Job Summary

The KLE Technician for Kitchen and Laundry Equipment is responsible for the maintenance, inspection, and repair of all critical kitchen and laundry equipment in the facility. This role is essential for ensuring that all kitchen and laundry systems operate efficiently and reliably to support the daily needs of the facility. The technician will focus exclusively on kitchen and laundry systems, ensuring these assets are maintained to meet operational standards and safety requirements.

Key Responsibilities

- **Maintenance and Repair:** Conduct scheduled and preventive maintenance on kitchen and laundry equipment, including but not limited to commercial ovens, dishwashers, refrigerators, washers, dryers, and other relevant appliances.
- **Troubleshooting:** Diagnose and resolve issues promptly in kitchen and laundry systems to minimize downtime and ensure functionality.
- **Documentation and Reporting:** Keep detailed records of maintenance activities, inspections, and repairs. Provide clear and concise reports to the O&M Manager on equipment status and necessary follow-up actions.
- **Safety and Compliance:** Follow safety protocols and regulatory requirements during all maintenance and repair activities. Ensure all equipment operates within manufacturer guidelines and complies with safety standards.
- **Inventory Management:** Track spare parts and materials needed for kitchen and laundry equipment, and coordinate with procurement for timely replenishment of parts.
- **Emergency Response:** Respond promptly to equipment breakdowns and malfunctions, especially in high-demand scenarios, to restore functionality as quickly as possible.

Qualifications

- **Education:** Diploma in Mechanical or Electrical Engineering, or a technical diploma in Kitchen and Laundry Equipment Maintenance.
- **Experience:** Minimum of 3-5 years in a maintenance role specifically related to kitchen and laundry equipment within an O&M project or similar environment.

- **Technical Skills:** Proficient in troubleshooting and repairing kitchen and laundry equipment, with knowledge of both electrical and mechanical systems relevant to this equipment.
- **Communication Skills:** Ability to document findings and communicate effectively with team members and supervisors.
- **Problem-Solving Abilities:** Strong analytical skills to identify, diagnose, and resolve equipment issues effectively.

Physical Requirements

- Ability to work in a physically demanding environment, including handling equipment in kitchen and laundry settings and lifting moderate weights.
- Willingness to be available for shifts or on-call as required.

Key Competencies

- Attention to detail and a commitment to quality
- Good time management skills and ability to prioritize tasks
- Strong focus on safety and regulatory compliance
