

Job Description: Senior Technician - Electrical

Job Summary:

We are currently seeking a skilled Senior Technician specializing in electrical systems to join our team. The Senior Technician will be responsible for maintaining, troubleshooting, and repairing electrical equipment and systems to ensure smooth operations. The ideal candidate will have a strong background in electrical maintenance, excellent problem-solving skills, and a commitment to safety and quality.

Key Responsibilities:

- 1. Perform routine inspections, maintenance, and repairs on electrical systems and equipment.**
- 2. Troubleshoot electrical issues, diagnose faults, and implement effective solutions in a timely manner.**
- 3. Conduct preventive maintenance tasks to ensure optimal performance and reliability of electrical systems.**
- 4. Assist in the installation and commissioning of electrical equipment and systems as needed.**
- 5. Collaborate with engineering and maintenance teams to identify opportunities for process improvements.**
- 6. Follow safety protocols, adhere to electrical codes and standards, and maintain a safe working environment.**
- 7. Document maintenance activities, equipment performance, and any modifications made to electrical systems.**
- 8. Provide training and guidance to junior technicians and operators on electrical maintenance best practices.**

Qualifications:

- Diploma or certification in Electrical Engineering or related field.**
